EDUCATION

B.Tech – Computer Science & Engineering

Govt. College Dharamshala, School of CSE & Technology

Aug 2022 – Present

Diploma – Computer Science & Engineering

Govt. Polytechnic College, Sundernagar, HP

2017 – 2020

12th Grade – Non-Medical (PCM)

Mandi, Himachal Pradesh

August 2021

EXPERIENCE

Data Curation Intern – NIELIT, Ropar

National Institute of Electronics & Information Technology

June – July 2025

- Curated and cleaned multi-source datasets using Pandas & NumPy; visualised results with Matplotlib and Seaborn.
- Engineered features and preprocessed pipelines to accelerate ML/DL model training and evaluation.

Complete Python Bootcamp – Certified

Udemy (Online)

June 2024

- Mastered Python from basics to advanced OOP, automation, data handling, and problem solving.

PROJECTS

Intelligent Traffic Sign Recognition System (GUI)

Python · TensorFlow · OpenCV · CNN · Tkinter

July 2025

- Trained CNN to classify 40+ traffic sign categories; built Tkinter GUI for real-time upload and inference.

Smart Weather Forecasting System

Python · REST API · Pandas · Matplotlib

July 2025

- Integrated OpenWeatherMap API for real-time & 7-day forecasts with interactive trend charts.

My AI Advocate – Intelligent Virtual Assistant

React.js · Firebase · LLM API

November 2025

- AI-powered chat assistant with context-aware responses; Firebase Auth + Firestore for persistent history.

Desktop Assistant using Python

Python · SpeechRecognition · pyttsx3

June 2024

- Voice-controlled assistant for web search, app launch, system info, and task automation.

TECHNICAL SKILLS

Languages	Python, C++, JavaScript, HTML/CSS, MySQL
Frameworks & Libs	React, Flask, Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn, TensorFlow, OpenCV, NLTK
ML / DL	CNNs, NLP, Feature Engineering, Supervised & Unsupervised Learning, Model Evaluation
Dev Tools	Git, GitHub, VS Code, HuggingFace, Render, SQL Workbench
IoT & Marketing	Arduino, Sensor Integration SEO, Google Analytics, Social Media Analytics
